How to treat

Featured Product

iheartwags.com

How do topical antibiotic ointments work?

Topical antibiotics are medicines you put on your skin to kill bacteria. They can reduce scars and help wounds heal faster. If you use an antibiotic ointment, apply it to your skin one to three times a day and then cover with a clean bandage.

How to protect

Featured Product

iheartwags.com

When should I use a bandage?

If you have a cut or scrape on a part of the body that might get dirty or rub against clothes, put on a bandage to protect it. Change the bandage every day or whenever it gets wet or dirty. Gauze and tape work best for large cuts and scrapes that bandages won't cover.
