HEART HEALTH

BODY AND GENERAL PAIN

HEADACHE AND MIGRAINE

Solutions for finding relief and feeling your best.

Should I take aspirin to help protect my heart?

Aspirin helps thin the blood and prevents clots. Taking a low-dose aspirin daily may help prevent a heart attack if you're at high risk for having one or you've had one in the past. Talk to your doctor about whether aspirin therapy is right for you.

How can I treat joint pain?

Both acetaminophen and nonsteroidal anti-inflammatory drugs (NSAIDs), such as aspirin, ibuprofen, or naproxen, may help your pain. But NSAIDs will also help with joint swelling. If you're already taking medicine, are pregnant, breastfeeding, or have a health condition, talk to your doctor first.

How can I treat my migraine?

For a mild migraine or headache, take a medicine with ingredients like acetaminophen, aspirin, ibuprofen, or naproxen. If you're pregnant or breastfeeding, talk to your doctor first.
