feel good every day

Digestive health solutions for you

Effective short-or long-term indigestion relief

What can I take for heartburn? Ease occasional heartburn with an H2 blocker, or an antacid that has calcium carbonate or magnesium. Both work fast and with some the effects can last up to 12 hours. Proton-pump inhibitors (PPIs) prevent frequent heartburn that happens more than twice a week. It takes a few days to feel the full effects, but relief can last 24 hours.

feel good every day

Digestive health solutions for you

Short-term relief for irregularity

How can I relieve my constipation?

There are several over-the-counter medications that may help. Fiber supplements, which should be taken with at least 8 ounces of water, laxatives, lubricants, and stool softeners can trigger a bowel movement. See your doctor if you're constipated for over 2 weeks.

WebMD does not endorse any products or treatment.

Supplements for bowel health

How can I stay regular?

Drink plenty of water. An extra 2 to 4 glasses a day may help. Try warm water or herbal tea in the morning. Eat prunes or bran cereal and add more vegetables and fruit to your diet. Exercise regularly. When diet and exercise are not enough, try a daily fiber supplement.

Digestive health solutions for you

Probiotics to promote digestive health

What can probiotics do for me?

These supplements contain "friendly" bacteria that may help your digestion and relieve some types of diarrhea. Foods like yogurt, kefir, and sauerkraut contain probiotics, but there are also tablet, powder and liquid probiotics.
