BLACK HERITAGE

Kermit Crawford -
President, Pharmacy,
Health and Wellness Division

Walgreens Celebrates **Black Heritage and Wellness**

Did you know that prostate cancer is the most common among cancers in American men, aside from skin cancer?
With occurrences more common in African-American men, than in men of other racial backgrounds, age is the strongest risk factor for prostate cancer. After age 50, the chance of having prostate cancer increases rapidly. See your health care provider for more information on prostate health and visit Walgreens to support your way to wellness.

Walgreens is proud to support diverse businesses and our store shelves reflect this with products produced by African-Americans. Visit Walgreens.com/cc for more information.
