How can I stay regular?

Drink plenty of water. An extra 2 to 4 glasses a day may help. Try warm water or herbal tea in the morning. Eat prunes or bran cereal and add more vegetables and fruit to your diet. Exercise regularly. When diet and exercise are not enough, try a daily fiber supplement.

Effective short- or long-term indigestion relief

What can I take for heartburn?

Ease occasional heartburn with an H2 blocker, or an antacid that has calcium carbonate or magnesium. Both work fast and with some the effects can last up to 12 hours. Proton-pump inhibitors (PPIs) prevent frequent heartburn that happens more than twice a week. It takes a few days to feel the full effects, but relief can last 24 hours.
